

Geography Unit Assessment Review

The Geography Assessment will be taken in class on **Thursday, September 20th**. The assessment is designed to give you an opportunity to show what you have learned about geography. Please use this review sheet as a guide to begin your studies for this assessment. Use your homework to review and practice the skills you will be tested on.

Geographic Vocabulary: Be able to match the following words to their correct definitions.

Archipelago
Cape
Estuary
Harbor
Peninsula
Strait

Atoll
Delta
Fjord
Isthmus
Plateau
Tributary

Bay
Divide
Gulf
Lagoon
Reef
Valley

Scale of Miles: Be able to measure the distance between two places on a map using the scale of miles provided on the map.

Cardinal Directions: Be able to describe the direction of travel on a map using N, E, S, W

Latitude and Longitude: Be able to find locations using degrees of latitude and longitude, and describe locations using degrees of latitude and longitude on a map.

Elements of a Map: Be able to identify and describe characteristics of the Equator, Tropics of Cancer and Capricorn, Arctic and Antarctic Circles, Prime Meridian and International Date Line. Also be able to describe the differences between physical, political, and special purpose maps.

Study these things and you will be sure to do well on the Assessment Thursday! Good Luck!
